### **How Much will you need?**

It is easy to estimate how much Scotts you need when you use 1000 sq. ft. as a basic measure. Multiply width of your lot by depth in feet—then deduct about one-third for space taken by house, walks and garden. This gives you the total lawn area in square feet. Calculate your needs according to the following chart.

### **Scott Beauty Prescription per 1000 sq. ft. of Lawn Area**

**If you have little or no desirable grass:**

- 1.** Feed with Scotts Turf Builder at 20 lbs. per 1000 sq. ft.
- 2.** Sow 5 lbs. Scotts Lawn Seed per 1000 sq. ft. or 3 lbs. Scotts Bentgrass. If your lawn gets little or no sunlight use Scotts for Dense Shade at the 5 lb. rate.

**If you now have a fair stand of grass, use half the above rates of Turf Builder and Scotts Seed.**

### ***Scott Spreaders will be Produced as soon as materials are released***

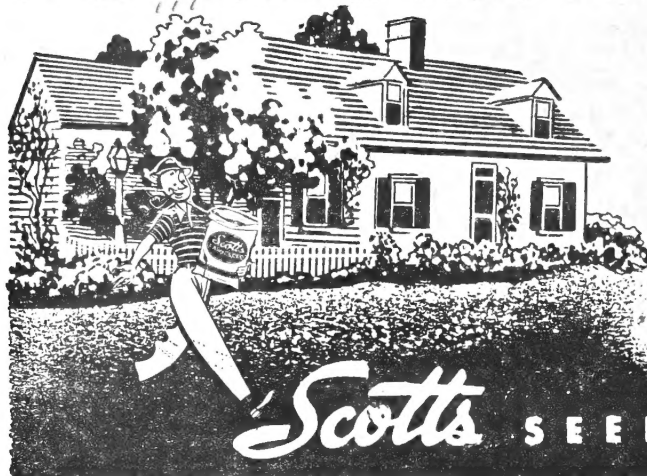

Everything is all set to produce the No. 50 Scott Spreader when the Government opens up on civilian goods. This machine evenly and accurately applies Scotts Turf Builder and Scotts Seed. Easily operated. Hopper capacity, 50 lbs. Turf Builder or 25 lbs. Scotts Seed.

Orders filled in rotation received as soon as production is permitted.

**SCOTTS SEED FOR DENSE SHADE**

The best selection of special perennial grasses for areas receiving very little direct sunlight. Harmonizes in color and quality with turf produced by other Scott Seeds. It is guaranteed 99.91% weedfree. Do not use in full sun. If in doubt sow half rate Scotts Lawn Seed and half Scotts For Dense Shade. Rate: 5 lbs. per 1000 sq. ft.

**SCOTTS BENTGRASS SEED**

For over 25 years Scotts Bentgrass seed has been making velvety home lawns and championship golf greens. Suitable for building new lawns or sowing into old lawns in full sun or partial shade. Will help thicken established lawns if sown into them or mixed with other seed. Rate: 2 or 3 lbs. per 1000 sq. ft.

**SCOTTS TURF BUILDER**

Proper feeding each spring and fall brings out the full beauty of a lawn; makes it thick, weedfree. Turf Builder supplies all needed elements in correct proportions for grass and trees. It provides quick stimulation plus long lasting nourishment. Ten pounds is enough for 1,000 square feet of lawn. Apply immediately prior to sowing seed, each spring and fall.
